## Janesville May Lose Its Only Recreation Center

### HOLD STOCK, FAIR GROUND OWNERSTOLD

CAMPAIGN TO BUY UP SHARES IN LAND IS INAUGURATED.

### CONTROL SOUGHT BY CHICAGOAN

Directors Start Counter Campaign and Urge Aid of Stockholders.

(By GEORGE KAVALEGE)

Janesville faces the possibility of losing its only recreational and amusement park—the fair grounds. A campaign to buy up the stock of the Janesville Fair association at the rate of 50 cents on each dollar is to be launched next week according to a statement made today to Harry O. Nowlan, secretary of the association, by Fred Tucker, Chicago.

Tucker plans to gain complete control of the land, put it into lots, and sell the property, according to his statement.

**Hold On, Is Plea**  
To combat the proposed campaign, directors of the association are appealing to stockholders to hold their stock and not sell under any consideration.

"The purchase of the fair grounds would be a calamity," Nowlan said today. "The only amusement park in the city, we need to hold it more than ever before. Stockholders when they are approached to sell their shares should consider seriously why they invested their money."

They subscribed for stock purely for a civic benefit—not to make money. They loved the true spirit; they were loyal to the city. And now we are confronted with the possibility of losing the grounds. I sincerely hope every one of the 30 stockholders will stand pat and refuse to sell."

"The association is now in excellent financial shape. Prospects were never brighter. If we lost the fair grounds we lose one of the most valuable pieces of property in the city."

**\$1,000 an Acre**  
"We have 47 acres of land there, easily worth \$1,000 an acre. Our buildings are all in first class shape and are worth at the least \$20,000. Other race tracks could not be duplicated for \$10,000."

The appeal and warning to stockholders not to sell has the strong endorsement of the other officers of the association. Dr. W. A. Munn, president, E. H. Crook, treasurer, the board of directors and the other leading members.

All are loathe to see the fair grounds divided into lots and sold. "It would be one of the worst things that could happen to the city," said Mayor T. E. Welsh when asked about the question today. "I will never under any circumstances sell my stock and I strongly hope other stockholders will absolutely refuse all offers."

The association is incorporated at \$50,000, with \$35,000 of the capital stock paid in. The liabilities consist of \$2,700 mortgage and \$7,000 in notes and bills, or a total of \$14,000. By disposing of the \$15,000 capital stock still unsold, the debts will all be wiped out and the association will be on a sound financial basis.

### THIEVES AGAIN VISIT FRANK DOUGLAS STORE

Robbing Frank Douglas' South River street hardware store is getting to be one of Janesville's popular indoor sports.

The place was visited again last night. A 25-20 calibre rifle, a twelve gauge shotgun and a number of boxes of 22 short calibre was the loot. Discovery of the robbery came this morning when employees opened up for the day.

It was found that a rear window, left open last night at closing time, offered ingress to the thieves. The Douglas store has been robbed a half dozen times in the past several years. Chief of Police William E. Gower today stated he planned asking the council to install an electric light in the alley behind the store.

### Carle Quits Police Board

Wilbur R. Carle

Wilbur F. Carle, veteran member of the board and fire and police commissioners, today presented his resignation to Mayor Thomas F. Welsh. Mr. Welsh in a letter to Mr. Carle answered, "I am very reluctantly obliged to accept your resignation."

Mr. Carle's resignation contained the plea that it be granted on account of infirmity. He has been a member of the commission for a long period of years and up to the present was its president.

The mayor's reply contained a tribute to Mr. Carle for his enterprise and services while a member of the board. Mr. Welsh wrote:

"By your resignation the commission will suffer a great loss. I wish to thank you for the commissions and the citizens at large for the splendid services you have rendered the community during your term of office."

### WAR FUNDS WORK NEARING END; BOOKS TO BE WOUND UP

The War Funds committee of the county council of defense is nearing the end of its existence. The "War Funds" campaign affairs are being wound up. With the payment of outstanding bills, the remainder of the fund will be turned over to the United War Works committee. This was the decision of the committee in meeting at the Myers house, yesterday.

The committee was successful in raising 99 per cent of the county quota of \$90,000 for the United War Work fund.

It was voted that an auditing committee, consisting of C. J. Smith, secretary of the Rock county council of defense; J. K. Munn, cashier, Second National bank, Beloit; and R. D. Hartley, banker, Evansville, be appointed to audit the accounts and books of the treasurer, R. E. Wiener.

This will be done in a week or ten days, and then so far as the activities of the War Funds committee are concerned, it will be closed.

Whether the auditing is complete, a statement will be issued showing receipts and expenditures, stating just how the money was expended.

The main campaign of "Your Share in Victory" was put on in March, 1918. This meant that people who had real estate or incomes were expected to pay on said incomes or real estate the amount of two mills on the dollar. The committee has issued the following statement:

"In behalf of the finest body of men in the world, namely those who composed the army and navy of the United States, and who were the direct beneficiaries of the funds collected, the War Funds committee desire to extend congratulations for the magnificent response made in the time of need."

"It was voted last fall to take care of the \$90,000 which was Rock county's assessment, for the Y. M. C. A., Knights of Columbus, Jewish Welfare association, Salvation Army, Library Association, War Camp Community Service, and the Y. W. C. A.; \$45,000 of this was paid November 1, the balance to be paid later."

The meeting yesterday, the various organizations were represented as follows: Red Cross, I. F. Wortendyke; Knights of Columbus, W. E. Dougherty; Y. M. C. A., E. Matheson; Rock County Council of Defense, C. J. Smith, secretary.

The need for funds for reconstruction work is still urgent, the committee points out in urging the completion of all payments.

### SERVICE MEN WILL PARADE ON TUESDAY

SOLDIERS AND SAILORS ASKED TO MARCH IN LOAN RALLY.

### COUNTY CAMPAIGN OPENS MONDAY

City Drive Stars Week Later—Volunteer Subscriptions Accepted All Next Week.

Monday marks the opening of the Victory Liberty loan campaign throughout Rock county.

As part of the big drive and to stir up enthusiasm in Janesville, a public meeting will be held in the Myers theater Thursday evening, at which time Gov. Eberhardt of Minnesota and other speakers will give addresses. A street parade of returned service men is planned. A. E. Matheson, publicity chairman, today sent out requests to every discharged soldier and sailor whose name he could procure to participate in the parade before the meeting Thursday night.

**Band Will Lead.**  
The Bower City band will head the line of march and as many service men as can be obtained are wanted to march.

Although Janesville's intensive campaign does not open until Monday, April 28, subscriptions will be received all next week at campaign headquarters.

**Volunteer Week.**  
The first week will be volunteer week. Special buttons will be given those who volunteer their subscriptions during the coming week.

That a great number will avail themselves of the opportunity to enroll themselves rather than be solicited, is the prediction of campaign leaders. The office at the corner of East Milwaukee and South Buff streets will be open from 9 a. m. every morning until all demands are met.

A full staff of clerks will be in charge. All are giving of their time without compensation. The county treasury will be apportioned those desiring to subscribe.

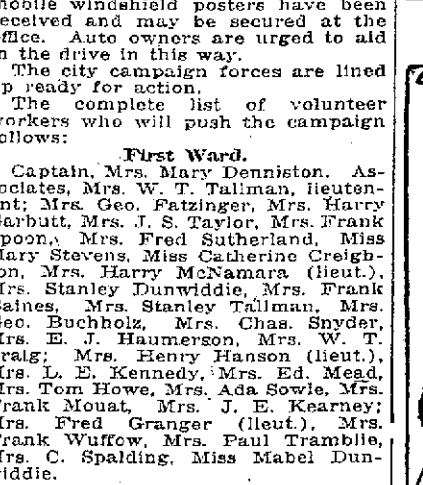

Among the different campaign donations which have been received, the Rock County Telephone company, offering free phone service during the drive.

**Center Meeting Monday.**  
The county campaign opens with a public meeting at 7:30 p. m. Monday night, at which time Roy Cannon, discharged soldier, who was a German prisoner, and A. E. Matheson, will speak.

Four-minute speeches will be given in all the theaters and speakers will talk at every public meeting in the county.

**33rd, 78th Divisions Assigned to Convoy**  
Washington, April 19.—All organizations making up the 33rd (Illinois) and 78th (New York, New Jersey and Louisiana) divisions have been assigned to early convoy home, the war department was informed today by General Pershing.

### Folks We All Know THIS IS THE FIRE FAN

Here we have a Fire Fan. He always beats the Fire Company to the fire with his little Chemical Extinguisher and has the Blaze out by the Time the Boys get their Hose Uncoiled. But some day there will be a Big Fire and then the Fire Fan will have to Go Away Back and Sit Down.

### Berlin Troops Capture 400 Strike Leaders

Berlin, April 19.—Government troops Tuesday surrounded and captured four hundred strike leaders in the Ruhr region who had left Essen to hold a secret meeting in Werden. Proclamation of martial law prevented a meeting in Essen. Many of the strikers who attempted to escape were wounded.

### FORMER INSTRUCTOR HERE

E. B. Keck, former manual training teacher at the high school, is in the city on a visit. He is now teaching in the Kenosha high school, having received his discharge from the navy several months ago.

### FOUR-MINUTE MEN READY FOR DRIVE

Sixteen members of the speakers' bureau of the county Victory loan campaign made plans for the drive, at a dinner at the Myers hotel at noon today.

W. H. Dougherty, chairman of the bureau, outlined the work which must be done, the different meetings at which speakers must appear, and then apportioned the work among the volunteers.

Four-minute speeches will be given in all the theaters and speakers will talk at every public meeting in the county.

### RELEASE BELOIT MAN UNDER \$1,000 BAIL

RELEASE GMBELOIT  
William Schiebel, Beloit, butcher, held at the county jail for the past several days on a charge of giving liquor to soldiers, appeared before United States Court Commissioner Stanley D. Tallman last yesterday afternoon, plead not guilty and was released under \$1,000 bonds. United States Deputy Marshall William Toulton appeared for the government.

Schiebel is a brother to a former Beloit police chief and Rock County sheriff. He was arrested by Officer Jay Heimer who alleges Schiebel was approached by a soldier, given two dollars and asked to purchase liquor. Heimer further alleges that the man entered a South Main street room and coming out made no secret nor attempt to hide the passing of the bottle to the soldier.

At the jail yesterday the Beloit man said he came to Janesville for a few drinks and that if he did what he was charged with it was unbeknown to him and while he was under the influence of liquor. He is said to bear an excellent reputation in Beloit where he is a prominent meat market proprietor.

### SUNDAY BASEBALL AUTHORIZED IN EAST

ALBANY, N. Y., April 19.—Gov. Smith today signed the bills authorizing Sunday baseball and moving picture shows.

Under the two bills baseball games may be played and moving pictures exhibited on Sundays providing that consent is given by the local governing body. The bills were fought by the Lord's Day Alliance and other religious organizations but were supported by the State Federation of Labor and numerous business and political bodies.

### DANIELS APPEALS TO NAVY

[BY ASSOCIATED PRESS.]  
Coblenz, April 19.—Secretary Daniels, speaking to men of the second division this afternoon said:

"As captain of the ferry boats which brought the American army to Europe, I wish to say that I have under my command seventy thousand American boys who also are clamoring to return to their homes. I have told those sailor boys they would get home but that first they must help get back to the United States the boys who fought in France and Belgium."

### HUNGARIAN GIRLS SEEK U. S. MATES

Vienna, April 19.—Foreigners, especially Americans, are receiving attractive marriage proposals from families of wealthy young Hungarian women, who expect by this means to save something from the wreck of their fortunes because of the fact that foreign property will be expropriated from nationalization.

Women who marry foreigners will be enabled to travel freely over the frontiers with their families. There is a disposition on the part of the new government, however, to allow middle class Hungarians to leave, provided they do not take property with them.

**Hungarian Noblemen Paupers**  
The condition of many Hungarians who have fled to Vienna is one of abject poverty. Count Alexander Esterhazy, who lost his son in the war, and who was with former Emperor Charles until the latter went to Switzerland, is finding means of subsistence by selling the furniture of his home here. He has already sold his clothes.

It is estimated there are only twenty naturalized Americans and American wives of Hungarians in Hungary. It is possible that an effort will be made to send food there. There is little meat and few vegetables in the hotels or markets here.

**Karolyi Hugs Milk**  
When Count Karolyi was in Vienna he called on Professor Philip Brown, secretary of the American mission here, and told him that he would be glad to accept a can of condensed milk. He finds socialism a difficult problem, and was much downcast when here, partly because he felt he was badly treated by the allies and partly because he is hated by the aristocrats of Hungary, who charge him with betraying them into the hands of robbers or fanatics.

He was also despondent because he was in former times he was accustomed to spending a million crowns annually.

### BRITISH AVIATOR FALLS INTO SEA

[BY ASSOCIATED PRESS.]  
London, April 19.—Major J. C. P. Wood, who left Eastchurch yesterday afternoon for Limerick, Ireland, to begin an airplane trip across the Atlantic ocean, fell in the Irish sea, but escaped unhurt.

Major J. C. P. Wood left Eastchurch, England, at 3:15 o'clock Friday afternoon. During the evening he was reported to have passed Sheerness on the Thames, a short distance from Eastchurch and then was lost for several hours. Late at night it was reported that a wireless message from his airplane had been received in Liverpool but this was doubted as Liverpool was far to the north of the route he intended to follow.

Lancaster Parker, another aviator, left Eastchurch soon after Major Wood, but nothing has been heard from him since he began his flight.

### ITALY'S CLAIMS BEFORE 'BIG FOUR'

TERRITORIAL DEMANDS TO BE THRESHED OUT BY CONFEREES.

### GUARANTEES ARE INSISTED UPON

Text of Preliminary Peace Treaty To Be Ready April 25.

### BULLETINS

[BY ASSOCIATED PRESS.]  
Paris, April 19.—After a conference lasting more than four hours, which was attended by both Premier Orlando and Foreign Minister Sonnino of Italy, the Council of Four today failed to reach an agreement on the Adriatic questions. The council adjourned to meet tomorrow morning for a continuance of the discussion.

London, April 19.—In a successful attack Thursday by Russian troops attached to the allied forces operating on the Murmansk railway south of Kem, the allied forces gained complete control of Lake Vigosero and the main road north to the White Sea, according to an official statement from the British war office today. The bolsheviks were driven twelve miles southward.

(By Associated Press.)  
Berlin, April 19. (Via Copenhagen)—Bamberg, which has been the seat of the Bavarian government of Premier Hoffman was the scene yesterday of a strong communist uprising, according to the Vossische Zeitung. The communists occupied the Central railway station, the former royal residence and all the military barracks in Bamberg.

**Italy's Claims Taken Up**  
Paris, April 19.—Italy's territorial claims, especially in the Adriatic, were presented to the Council of Four today by Baron Sonnino, the Italian foreign minister.

The fact that Baron Sonnino and not Premier Orlando, presented the Italian case to the council is regarded as significant because the foreign minister is an extreme advocate of Italy's worst claims.

It was Baron Sonnino who signed the treaty of London and he now holds Premier Lloyd George and Clemenceau to the pledges made in the treaty.

**Insist on Guarantees**  
London, April 19.—In political circles here much significance is attached to the resolution adopted by the French senate demanding the insertion in the peace treaty of guarantees suggested by the allied high command.

The resolution says, "perhaps, be read in connection with the interview with Marshal Foch, had by a correspondent of the Daily Mail, in which the allied generalissimo insisted on the necessity of regarding the Rhine as the real barrier against another German attack, because, the Rhine could be held with a small force, whereas the political frontier west of the Rhine as proposed under the peace treaty would, as the marshal explained, have to be held with large forces along its whole length."

There are rumors that Marshal Foch insists strongly on these guarantees.

**Text Ready April 25.**  
Paris, April 19.—The text of the preliminary peace treaty will be transmitted to the press Friday or Saturday of next week, April 26 or April 27, the Petit Parisien says.

The Echo de Paris declares that in case Germany refuses to sign the preliminary peace, a special train will immediately be put at the disposal of the enemy delegation for their return to Germany and the allies will take military and naval measures to enforce the treaty.

OUTSIDE AGITATORS  
BLAMED FOR STRIKE  
OF ELECTRICAL MEN

After four days away from their jobs, about 20 electrical workers who were called upon to strike by a national official of the electrical workers' union have not come to terms with the contractors.

That the situation has been brought about by outside agitators and that the men would have been satisfied if they had been left alone, is the statement of F. H. Korst, general manager of the electric company.

"At a conference held about the first of this month we discussed the matter of hours and wages with our employees," said Mrs. Korst. "Out of that meeting came an adjustment which was entirely satisfactory to the men who worked for us, according to their own statements. We increased the wages and agreed to another substantial increase as soon as conditions warranted. We also shortened the number of working hours per day. This was done voluntarily by the company. At the conclusion of the meeting the men declared they were satisfied with the hours and pay."

"Then on Tuesday came a man named Slattery, an official of the electrical workers' union, who asked us if we were willing to sign a contract which called for 44 hours a week for workers, time and a half for overtime and double time Sundays and holidays, closed shop, and provision that a journeyman and helper be sent on every job. We told Slattery that our men were satisfied and that we had made an adjustment with them as far as wages and hours were concerned. Wednesday the men went on strike."

"At the time the hours and wage adjustment was made, journeymen were receiving 50 cents an hour. The men asked that the increase be made to 65 cents an hour. We succeeded in convincing them that to load such an increase on the public so suddenly would have a bad effect and compromised by splitting with them and raising their pay to 57 1/2 cents an hour. They agreed that this was fair."

Strike leaders today declared they would not consider going back to their jobs until the union had been recognized and the union scale of wages adopted by the electrical companies.

"We'll go back to work under the old system," said one leader, "if we are a confident of winning," stated another.

EVANSVILLE WOMEN  
LAUDED FOR WORK

Mrs. Fred Green of Evansville, who achieved such profound success as chairman of the Rock County Child Welfare Committee is recipient of congratulations and thanks from all sides, coincident with the success of the movement for a county nurse, which the Board of Supervisors approved at their meeting, Wednesday.

Women and men of Janesville and throughout the county who realize the great need for an expert to advise and consult with parents as to the health and rearing of their children declare that Mrs. Green deserves great credit for her efforts. Mrs. O. C. Colony, another Evansville lady, who appeared before the county board with Mrs. Green, and who aided greatly in the movement, is also being congratulated for her great work.

California Blossoms  
Received by George Yahn

George Yahn, Jr., yesterday received a box of orange blossoms from his mother, who is spending the winter with her son, Harold, at Palm Springs, California.

This is a little desert town on the edge of the great Colorado desert, almost 150 miles from Los Angeles. It is the location of one of California's famous small hotels, "The Desert Inn" and of late has become somewhat of a movie center where some of the film companies from Hollywood take desert scenes.

On April 8, 25 ladies surprised Mrs. Yahn with an orange blossom shower, this being the thirty-sixth wedding anniversary of Mr. and Mrs. George Yahn. A picture of the groom of 24 years ago was placed on the serving table, but was proclaimed a poor substitute for the original, and the wish was expressed by all that Mr. Yahn attend in person next year.

Women of Janesville  
You're Wanted!The Red Cross is Calling Upon You to Do  
a Humanitarian and Charitable Act.

There are thousands upon thousands of homeless, suffering children in France and Belgium.

These children must be clothed!

If you saw a neighbor's child in want or cold through lack of proper clothing you would arouse yourself and see that proper provision was made to supply the necessities the case required.

Because the children in France or Belgium are not within the range of our vision is no reason why they should suffer.

The American Red Cross is making provision to furnish needed clothing to these homeless little sufferers and are asking patriotic, warm-hearted American women to do some little additional knitting.

The Janesville Chapter of the American Red Cross has been allotted 345 pounds of wool, which they request be knitted and returned to them in the form of sweaters, stockings and mufflers, for distribution in France and Belgium.

And so this appeal goes forth to the women of this city: That you arrange through the Janesville Chapter to knit a few pairs of stockings, a sweater or two or a couple of mufflers.

It has been estimated that from this 345 pounds of wool there should be knitted and returned 450 children's sweaters, 200 pairs of children's long stockings and 200 mufflers.

Our duty did not cease when the armistice was signed. These homeless children of France and Belgium become our charges, because they are suffering for our sakes who are in comfortable America.

Arouse yourselves, Women! You have never yet failed to do anything of this nature which has been required of you.

Go to Janesville Chapter of the American Red Cross and secure your allotment of wool. After your knitting is completed, you will then be proud of a duty well performed.

NOVEL SAFETY RAZOR  
PRODUCT OF IOWA MAN

R. L. Holmes and G. N. Hamilton, representatives of the Collins Rotary Safety Razor company, have been transacting business in the city during the past few days.

The Collins rotary safety razor is the invention of C. B. Collins of Des Moines, Iowa, and is one of the most novel and remarkable instruments ever put on the market. As the name implies, the principle involved is that of a circular shave rather than the old-fashioned method of shaving by the use of a straight razor.

Built on sane, scientific principles it is absolutely self-shaving. It is fashioned something like a watch, is easily fitted into the hand and can be carried around in the pocket. When one wants to shave all that is necessary is to wind it up, lather your face and the razor does the rest. It is receiving much attention from men who shave themselves.

WHO'S WHO  
in the Day's News

MAURICE MAETERLINCK  
Cable dispatches recently carried the news that Maurice Maeterlinck, the Belgian poet-playwright, had taken a bride—Miss Renee Dahan of Nice, France. Mr. Maeterlinck has been a resident of Nice for ten years. He is 58 years old; his bride is 26.

Maeterlinck was born in August, 1862. He was 27 when his first book, a collection of verses entitled "Serres Chandes" was published.

Soon afterward he began to write the dramas that were to win for him the appellation of "the Shakespeare of Belgium."

A play, "La Princesse Maleine," brought him much prominence. In 1892 he brought out one of his most successful dramas, "Pelleas et Melisande."

He has published a number of symbolic and philosophical essays. Much of his work has been of the psychological order. He has devoted no little time to a study of the mystical writers of all ages. Spiritual issues have formed the basis of his dramas, which are invariably flavored with mysticism.

Among the better known works of the Belgian writer are "The Betrothal," "The Blue Bird," "La Princesse Maleine," "Les Aveugles," "Les Sept Princesses," "Pelleas et Melisande," "La Sagresse et la Destinée," and "La Vie des Abeilles."

## OUR SATURDAY NIGHT

"A good many years ago one of the Vanderbilts was accused of saying 'The public be damned!' He never said it, but how Vanderbilt was abused because of the rumor that he did say it!

"It was charged that he said it in connection with the railroad business. But now that the government has charge of the railroads, how perfectly it carries out a policy of 'The public be damned!' A gentleman tells me that in New Orleans he wanted to buy a railroad ticket. He took his place in a line and waited fifty-five minutes before he could transact his business. And when he finally reached a clerk, he was told he was lucky to be waited on in fifty-five minutes.

"This is the railroad 'reform' we have accomplished after years of effort. And rates are 25 per cent higher than under private ownership, with a tremendous deficit looming up.

"Some of our wisest men say the proposed league of nations is a similar 'reform'.

"That is the trouble with us fool Americans; we scream and agitate for a certain thing, claiming it will solve our problems; and then discover it isn't what we needed—that all our work for reform has been wasted."

This word of criticism is from the pen of Ed. Howe of "Potato Hill" farm fame. Mr. Howe was a newspaper man in Kansas. He retired some years ago to a farm and has since been publishing a little magazine at ten cents a year. It carries no advertising and is evidently published for the pleasure of the editor, who is quaint and sometimes original. What he has to say about the railroads, under government control, is true to the letter, and it applies with equal force to all public utilities, which the government is attempting to handle.

There has never been a time in the history of the nation when the public service was so neglected and abused as it is today. The railroads, with forty thousand more employees than under private management, are doing less business than ever before, while overhead expenses have increased many hundred million dollars. The express service is so abominable that it is difficult to tolerate, and claims for damage are of daily occurrence. There is no competition and no incentive for employees to take ordinary interest in their work. A lodge in a neighboring city sent to Chicago for a floral tribute, a time ago. When it failed to be delivered they called at the office, where they found every man in sight with a buttonhole bouquet, while the discarded wreath was laid away in a corner.

Goods which should be delivered in twenty-four hours are from three days to a week in transit. A cigar manufacturer who used to ship everything by express, says that the service is so poor that he can no longer use it, and has been obliged to patronize the Parcel Post, which isn't much better. The government in business is a flat failure and the war has so developed and encouraged extravagance that the public crib is in constant demand to make good shortages. The government employee is in a class by himself with nothing to encourage ambition and no future in sight. The class is now so large that it has become a menace to American business, and the courtesies and accommodations, for which public utilities have long been noted, are lost arts, which will not be restored until private ownership and private control are again in command.

A government monopoly is worse than a private monopoly because it is a law unto itself. The railroads were handicapped for many years by burdensome anti-trust laws as well as by anti-pooling laws. When the government assumed control, these laws were abolished without ceremony, as were others, including wages and hours of work. Many of the railroads would be in bankrupt condition were the government not the principal creditor.

The war, of course, was an excuse for all kinds of inefficiency in business, and but little criticism was offered. But little attention was paid to the cost of material and all kinds of wages were paid for work. Not cost, but production, was the watchword, and it is not surprising that prices soared beyond all reason. The government was the big employer and government contracts were scattered broadcast.

One of the most glaring failures was the attempt to build aircraft. After a year of experiment and a waste of \$650,000,000, appropriated by the government, the discovery was made that the whole effort was a failure. Hon. Charles E. Hughes was then appointed as an investigating committee. His report was filed about the time the armistice was signed, and but little attention was paid to it because the peace problem was all-absorbing. The report was very exhaustive and will be found useful in the day of final reckoning with the administration.

The authority vested in President Wilson has made him the Czar of the Nation, and America, with its long-enjoyed freedom, has become a one-man government, in fact as well as in name. We have long talked about autocratic England, but England has nothing on us today as a monarchy. It was refreshing to read Lloyd-George's address to the House of Commons, delivered a few days ago, on his return from the Paris convention. No oratory, but a plain, heart-to-heart talk with the people. There was nothing defiant about it, and they sent him back to Paris to complete the work.

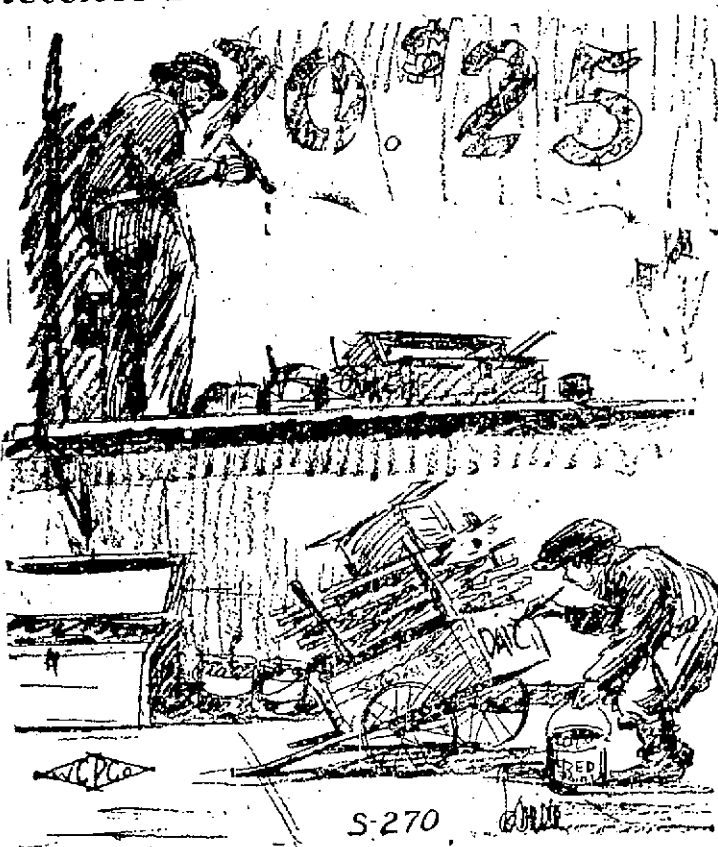

This speech, by the way, should be read by the American people, because it shows that the responsibility of the Peace convention, so far as its humanitarianism is concerned, has been born entirely by Britain and America. France, the greatest victim of the war, is interested only in indemnities, and while Clemenceau has exerted every effort to conciliate, the people are still clamoring, and are not satisfied. If Lloyd-George's address could be delivered in this country, it would go a long way towards restoring harmony on the League of Nations covenant. President Wilson may have learned a lesson.

The business enterprises of America are passing through an era of uncertainty, which is so new that it is without a precedent. The government has been in such absolute control for the past eighteen months that the old laws, which have long governed in business have been wiped out. For instance, the law of supply and demand, as a price regulator of everything, has always been the court of last appeal. Today the government fixes the price of many staples, regardless of the old law, and so the public pay for wheat, meat, steel, lumber and many other things, the established price.

Whatever else happens, wage scales must be maintained or advanced and every idle man must be employed. Under the new order of things the railroads have recently added to their payroll \$65,000,000. The packing houses have agreed to maintain the present wage scale for a year, and the Department of Labor at Washington announces to all employers that wages must not be reduced. In the meantime the Victory loan is being floated, burdensome taxes are being collected, and many manufacturers find the payroll a perplexing problem, while the cost of living is still on the upward climb.

There has always been a pinnacle, where industries rest when forced beyond the limit, and we are dangerously near the zenith today. The descent is usually more rapid than the climb, and in the panic that follows, hard times take the place of prosperity, and prices tumble more rapidly than they advance. Under these conditions no law is recognized except the law of supply and demand. No man can be compelled to run his business at a loss, and no wise man will long continue to do it. It may be possible to settle back to normal condition, in these days of reconstruction without a

panic. God grant that it may be, for hard times means the soup house and the empty dinner pail, to say nothing about bankruptcy and financial failures.

What our country needs today is a man at the seat of government who knows enough about business to recognize the signs of the times, and who is willing to take into his confidence the servants of the people, elected as his advisors. The old world is nearer to us than ever before, but America has lost none of its charms, and is still entitled to first consideration. It is to be hoped that Mr. Wilson's high ideals may be realized, and that he may soon feel warranted in turning over to Colonel House the responsibilities of his foreign mission. There are some things at home which need attention, and so long as he is the government he needs to be on the job.

## FORTY YEARS AGO

The Janesville Daily Gazette, April 19, 1879.—The high school party given last evening in Apollo hall was a very pleasant affair. Those who attended it declare it to be the best yet given. The attendance was large and the receipts large enough to cover all expenses.

The many friends of Mr. and Mrs. Frank L. Lawrence welcome them back from an extended visit in Kansas.

At the meeting of the Mutual Improvement club, Monday night, C. A. Stearns, Miss Clara Drake, Miss Carrie Zeininger and Ben Rexford will present papers.

J. W. Jones, who is quite a nimrod, killed thirteen wolves in the

town of Avon recently. He brought the skulls to the county clerk's office and received \$45 bounty.

A merry dance was given last evening by the Beloit Guards. Twenty-seven members of the Janesville guards attended. The occasion was a happy one and enjoyed by all.

Milton—A very serious and it is feared fatal accident occurred at Milton Thursday afternoon. The four-year-old son of Alex McNitt was horribly burned by his clothing taking fire, and at the present writing slight hopes are entertained for his recovery. While standing before the open door of a stove, the little lad's clothing caught fire and the burns inflicted before the fire was put out were terrible.

DECIDES ADVERTISING PAYS.—Oshkosh.—The Northern Hemlock and Hardwood Manufacturers' association, after a study of the results obtained by an experiment of several years in a different type of lumber advertising, by the use of the daily newspapers as well as the magazines, has decided that advertising pays. A conference of the Bureau of Promotion of the association consisting of M. P. McCullough of Schofield, chairman, and R. B. Goodman of Goodman, Wis., John Thompson of Park Falls, E. A. Hamer, Chassell, Mich.,

and H. H. Butts of Park Falls, it was decided to expand the advertising department rather than cut expenses. A study of the finances showed that it will be possible to expand the program in the Birch advertising this year so that a total of \$20,000 can be used for space in national mediums. The Hemlock campaign in daily newspapers will be continued along the same lines. The White Cedar Single manufacturers have appropriated money for special advertising, and their advertising will be correlated with the Hemlock advertising.

## JUST FOLKS

By EDGAR A. GUEST

### BUD'S VIEWS.

Old folks think it's fun to be just a little boy like me—  
Think that all I got to do  
Is to play the whole day through  
And to stay out in the sun,  
Havin' every kind of fun,  
Poets write about the joys  
That belong to little boys,  
But no poet's written yet  
'Bout the scoldings that they get.

Wonder what old folks would say  
If, a dozen times a day,  
They were scrubbed until it hurt  
Cuz their mothers hated dirt.  
Wonder how they'd like to be  
Treated just the same as me  
An' as soon as they were fed,  
Chased upstairs an' put to bed,  
Or when they've a stummock ache,  
Castor oil be forced to take.

"Spose those long-haired poet chaps  
Had to sit in women's laps,  
An' be kissed an' hugged a lot,  
If they wanted to or not;  
"Spose while playin' one-o'-cat  
It had come their turn to bat,  
But they wouldn't want a grin,  
If their mothers called 'em in,  
"Chased 'em on an errand for  
Something at the grocery store.

Old folks think it's fun to be  
Five years old an' young like me,  
An' the poets sing the joys  
Of the happy little boys,  
But right now I'm telling you  
Boys have lots of troubles, too—  
Lots of things to make 'em mad,  
They're not always feeling glad,  
When you're five years old, by Jing!  
You get blamed for everything.

## "MICKEY"

### A Few Words From Mr. Zanias.

In bringing "Mickey" to Janesville I do so realizing what a wonderful picture it is and how universal it is in its appeal. There isn't one single person in this entire community who will not enjoy this picture.

"Mickey" is the highest priced picture ever brought to Janesville, and yet it will be played at popular prices. The rights to play the picture here were purchased outright. The purchase price was \$700. It could have been secured on a percentage basis, but that would mean that the admission prices would have been \$1.00 or more. I felt that Apollo patrons should not be denied the chance of seeing this exceptional picture and have taken the chance of paying \$700 so that the picture would be kept down. After one audience sees "Mickey" I am sure that what they will say about it will bring more people to the Apollo to see it, than have ever witnessed one picture in this city. I have seen "Mickey" and cannot begin to describe its wonderful appeal. All I can say is that it has my wholehearted recommendation and that everyone should plan now to see it on some day during the week it is here. You will never regret seeing "Mickey."

JAS. ZANIAS, Mgr.

This picture is for everyone--men, women and children. Its appeal is universal. The sweetest picture ever made. We do not hesitate to give "Mickey" our unqualified endorsement.

### Resume Of Moving Picture Programs Of Last Week

BY MRS. ABBIE HELMS.

"Invest and Finish the Job" is the stern admonition given on the screen which accompanies the picture of Uncle Sam, and which tells people to buy bonds of the Victory loan this week at the theaters. Interesting pictures are coming out of Germany which show the lawlessness of the machine-guns planted at the street corners help to keep order.

Pictures taken from airplanes continue to be a favorite novelty which has begun by war time necessities but which has come to be an interesting as well as instructive branch of the art.

A wholesome little story was told by Mary Miles Minter at the Beverly Saturday in "The Eyes of Julia Deep." She was supposed to be a happy little shop girl who shopped to a rich spend thrift some of the joy of living and working for a daily wage, until he roused up and made a place for himself in the world.

The Sunday story had to do with the detection of a crime, where the detective is taken into account. Bert Lytell is the accused man, and the play was called "Blind Men's Eyes." The next attraction at this theatre, "Woman," shows some of the noted women of history from Eve down through the ages, with spectacular glimpses of the pomp and splendor of ancient Rome, and the rugged scenery in Brittany. The treachery and low standard of morality of these women is shown in contrast to the splendid work of modern women for the Red Cross and other war work which completes the picture.

A rollicking little play by Billie Rhodes, which has pathos contributed by the old clown and the scenes of circus life as a setting, was given Thursday. The wonderful acting of Gimpey Dog was worth the price of admission.

The Majestic had a continuous show Sunday, with Anna Rubens in "The Painted Lily" as the attraction. She represents an innately good girl married to a gambler and thrown into the vicious surroundings of fast life.

### "MARY'S ANKLE" GOES ACROSS AS BIG HIT

A comedy which carried across the footlights from the lifting of the first curtain on "Mary's Ankle," presented at the Myers theatre last evening, delighted the audience, small probably on account of Good Friday, for the two hours performance. The comedy picked up adherents in the audience until the time of the arrival of Mr. Lytell, who by the way is the father of Bert Lytell, the movie star, when the spectators settled down for one continual laugh. The love predicaments of the gray haired uncle, a regular old mischief, put through with the ease of the veteran comedienne. A reserve which was always ready to bubble over made its effect upon the audience. Mary, about whose sprained ankle the story revolves, was well and attractively played by Helen Spring. The "touching" scene when the three old college chums, all broke flat, were working out Chub's ideas, struck home. Grasping at the dollar which came with the pawn ticket for the laundry's parrot, each of the three was beginning to see sunlight again, only to have Mary lift the crisp dollar bills for the Belgian relief. Celestine, the daughter of the

landlady, Mrs. Merrivale, was always around with her eyes open and her mouth too. The part was cleverly costumed and portrayed by Dortha Sadler. The mother, who wanted to have all the newest diseases the doctor, the second lead in the play, could recommend, afforded many a laugh. The doctor's chums, Stokes and Chub, forming the broken trio, rounded out the circumference in the broken chain. Mrs. Burns, the first steward, and the expressman, added their parts in the average way. The play was well acted and well received.

MYERS

Manager Myers has completed arrangements with the famous Kilties Band to return to Janesville on Easter Sunday, when they will open a four days engagement at the Myers theatre in conjunction with feature pictures. The Kilties need no introduction to the Janesville theatre goers as they made a decided hit here only a few months ago. They will give four shows here on Sunday with Katherine Calvert in "Marriage" and they will give an entire change of program daily. Prices have been placed within reach of all.

APOLLO

Just a Word About "Mickey"  
Mickey is all girl, all mischief, all loveliness! She is as brilliant as a night-air-raid. At last we have a picture that has the genuine ring of high spirited, breezy girliness, a super picture that comes once in a lifetime. The imagination of Mickey contains every quartet that goes into the making of a worthwhile success—and every cog in the wheel fits. Take my word for it Mickey will call out the reserves. She'll get the goat, too. Anyhow she can pack her things in my trunk for life and my last smile on is hers for the asking.  
This hoyden-harum-scarum, kissable imp is as wild as the pine-cone and she digs a deep note in your heart where her sweetness will linger like the fragrance of a briar rose. There is not a dull moment in all the seven reels and the comedy registers with cat, dog and squirrel give startling vicine of high-salaried actors, and as for Mimi Ho Ha, the squaw, she alone is worth the price of admission. But it's Mickey that strangles us with laughter, and the hair-raising stunts indulged in by this acrobatic person puts Doug Fairbanks on the invalid list. And as for thrills, there are so many sensational exciting moments that the man sitting next to me in

"Fish Campaign" Launched.  
Madison.—A "fish campaign" has been inaugurated by the United States bureau of fisheries. The war has caused great changes in the fish diet of the western hemisphere, but the bureau intends to encourage the citizens to eat more fish. The impending opening of the fish season in Lake Michigan waters, calls attention to the great changes that have been made in the diet of the western hemisphere. The greatest inland fish port in the U. S.

world, though this is not generally known, and the fish warehouses are beginning to attract international attention. This was brought out by a recent statement of Green Bay's importance by the state conservation commission. The conservation commission in an effort to aid in the federal government's campaign to get the public to "eat more fish" has taken steps to facilitate the proper storage in the Green Bay market of inland fish catch. It was the Canadian fish diet for soldiers which brought to the United States the importance of cultivating a fish market, and also to prepare for the re-stocking of the state waters. Canada exported 50,000,000 pounds of iced fish to England from 1916 to the end of the war. Great refrigerator car trains carried much of this export shipment. While there is not any definite information on Green Bay's fish trade, it is safe to say it was close to this figure. Wisconsin's fisheries, however, are near their maximum, while Canada's fisheries are just developing. By 1920, the fish catch in some species has doubled, until the fisheries of Norway and the British Isles alone contest Canadian fish catching superiority.

### A Few Remarks For The Consideration Of Fisherman

father and mother, and four weeks, and at 12 weeks the flight feathers are still immature.

Mr. J. H. Job and his assistants returned after spending three months at the lake, they had a thriving family of July 200, comprising the following:

100 scops or bluebell, American goldeneye or whistler, pintail, mul-  
lard, gadwall or gray duck, blue-winged and green-winged teal, canvas-  
backs, mudhens. All did well except the goldeneye, which did not seem to thrive in captivity. This seems strange, as they can be found in the same open water. They found the canvas-  
backs the shyest and easily frightened, and the goldeneyes the least so. While feeding the young canvasbacks the birds were badly frightened.

The birds have been installed in a large building at Coon Lake, and the United States will endeavor to propagate the different varieties obtain-

The following article is by Herbert K. Job, who Mr. Hazelton says, knows more about the nesting places of wild fowl than any other man, and who has been seen by Mr. S. S. Gagnier to go to the far north twice to obtain birds and eggs for propagation.

**THE NESTING SEASON OF WILD DUCKS**

(By Herbert K. Job.)

I spent two seasons in North Dakota observing the nesting of wild ducks. The breeding dates of various ducks varies considerably with the

carelessness or tardiness of the particular season. While there is no exact time at which each species lays—for individuals are very erratic—there is an average date at which one species thus expends the bulk of a species thus employed.

During a week's time spent among the large sloughs of North Dakota, from June 7 to 24, I found a considerable number of nests of the thimble-necked and ruddy ducks, built out in the reeds over water averaging knee deep, all of which made a very interesting study. The ruddy ducks were only just beginning to lay their eggs, and I found many of the nests of the red-heads to contain eggs. The red-head is a great layer. Some days I found half a dozen nests, most of which had as many as ten eggs, several times as many as the ruddy ducks. I found one nest of red-head from a nest of twenty-two eggs—the largest set that I have ever seen in the nest of any bird. The canvasback usually had ten or eleven eggs, sometimes twelve. I found one nest of the latter in a very large, open clump, away out in the water. Mrs. Canvasback was asleep on her nest, with her bill resting on her breast. I stood till she was up, and then I took her for several minutes. Think of it! The famous canvasback of the epicure at home

The little calendar I give I would not set up against the observations of others; it is simply the average of two seasons' continuous observation. Mallards and pintails are notably the early birds, laying any time after the first of May—occasionally before. I am doubtful—though I think that about May 20 one will find the greater number of nests. By this time, in ordinary seasons, the canvasbacks have laid

and the hooded mergansers. May 25 is about the right date for goldeneyes; June 1 for teal, shovellers, and redheads; June 10 or later for gadwalls and ruddies; June 15 and on for the scaups and baldpates, and the 1st of July for the whitewinged scoter.

oads were taken away from nearly

the buildings when the final round-up was made. They represented not only the cast-offs of the children, but many of the things given were old-fashioned favorites, given up with regret, because other little boys and girls were needy.

**Help Themselves.** They brought coats and caps, and warm little hoods for girls, and mother's shawl, and auntie's winter cape. They sized up the blankets on baby's crib, and wondered if one could be

pared for the little's ones abroad. and what a choke came into the voice when they whispered to teacher that the bundle of clothing brought in, had belonged to little brother who had died.

The records up to date of the Rock-ness show that Rock county had contributed in \$,883 pounds of clothing, but who can estimate the value of human madness, in loving charity, and in compassion for suffering people which has gone into the bundles, and which

warmed the hearts of the whole district.

If something happened to the transport, and the whole consignment went down in the mid-ocean, yet would the work and anxious planning of a movement be worth while, for the splendid co-operation of all the forces engaged in promoting the movement.

The warm clothing will be taken by the sick loads by the Red Cross into the devastated villages of France, Belgium and Poland, and little Jean or

The further interest of the children for the little babies abroad was shown late this past week by the arrival at the city ward of 40 infants from the school of Miss Streight, Mill Junction. Warm little hoods, blankets, shirts and garments of all kinds testify to the loving interest and

instaking labor of these school children. They were brought in by Mrs. Bertha Burdick, chairman of the Union branch.

## A WOMAN'S BUSINESS

LUCKY HASKELL AND SIX YEARS ago the little girl who had been a million of people chuckled and bought copies of a certain great fiction weekly because of a picture on its front cover, "The Riddle." Two youngsters, an attractive chubby boy of six and his small sister, had evidently raided their mother's doughnut jar and were disposing of their booty in the crotch of an old apple tree, just out of reach of their mother who, glancing apologetically, was shaking a threatening rolling pin at the young robbers. The boy, his pockets stuffed with reserve doughnuts, and his mouth staring away from her, was generously offering mother one of the doughnuts. There seemed reason, however, to doubt his sincerity, for he was holding the doughnut just out of his mother's reach. The small sister was calmly showing apple blossom petals on her mother's upturned and apparently stern face. But the outraged parent, flushed with wrath, sunlight, cooking, health or all of these, did not impress the public with her wrath, as the corner of her mouth—away from the youngsters, visible to the public—held what looked suspiciously like the dimpled vestige of a smile.

Among those who were attracted to the cover were Wait and Janet Stedman. Janet was the first to exclaim: "That's Lucy Haskell and her youngsters! Yes, sir, there's her name signed to the sketch! Wait, I must see that picture in real life with my own eyes. I'm willing to do it! I'll go to Lucy's home to do it!" Her face shone with eagerness for the adventure.

"I'll go with you," Wait replied heartily. "It's six years since I've seen her."

One of the effects of the magazine cover, therefore, was the arrival a week later of Wait and Janet in their big touring car, which looked like a comfortable farmhouse in the west which combined all the wholesome charm of the old-fashioned country homestead with evidence of being tenanted by a well-to-do family of taste and culture.

From the house a sunburned, buxom woman ran down the cobbled walk to meet the Stedmans. From

## Attractive Costume Blouses for Easter

(By ELOISE.)

Not since the lingerie blouse first appeared some ten or more years ago have blouses attained such elaborate trimming as the 1919 spring models display. A charming array of tucks, cleverly set in with bands of lace and ornamented with embroidery makes the sort of blouse that connoisseurs of dainty dress admire. Undoubtedly the sheer and beautiful blouses of chiffons are to be worn more than ever and those who prophesied their disappearance from the smartly gowned woman's wardrobe have prophesied in vain, if one is to judge by the great

assortment brought out this season. So lovely indeed are some of the new printed designs that it is possible to achieve a whole frock by the addition of a simple skirt of crepe de chine either in flesh tint or white. It has come to be an accepted fact that georgette founders so well that many women prefer blouses of this material because of its enduring qualities to those of fine batiste and handkerchief linen. It is very soft, lends itself excellently to trimming, and having more substance than chiffon, it is considered a better investment besides doing away with the necessity of an extra

lining, so imperative a requirement of the thinner chiffons.

Three blouses of printed chiffons show what is new in style and materials for Easter. At the left is one of the newest blouses with its peplum front and loose bell-shaped sleeves. Magneta colored figures on a white chiffon ground is combined with ivory net and valenciennes lace. The square collar is quite ingenious and the long skirt falls below the waist to form a peplum. In the center is a town blouse of navy and white printed chiffon draped in basque effect. It features a round neck, kimono sleeves and net trim. The novel jewelry worn with it gives an atmosphere of sunny countries. The wood beads and large earrings of scarlet are worthy of fashion itself. A patriotic blouse is pictured at the right. It is fashioned of Joffe blue printed in Pershing rose. The under blouse sleeve and collar is of white georgette. The overblouse has front and back panels and bell-shaped sleeves of the printed chiffon. Double faced ribbon serves as a decorative fastening.

SOME THINGS DECENT PEOPLE WON'T DO.

Suppose as you go down the street this morning you were to meet a returned soldier, hitching along on crutches, or with a limp, or with a cane, or with a sad, or most bitter of all, condemned to work in darkness all the days of his life.

And suppose this man should come up to you and say: "I haven't had a thing to eat for two days," and asks for a small loan, can you imagine yourself pulling away from him and saying coldly, "The war is over. Don't bother me any more."

That is a fool question, isn't it? It could have but one answer.

Decent people don't do that sort of thing.

Some of the things this loan means. Well, then, here's another thing that decent people don't do. They don't refuse to subscribe to the Victory Liberty Loan if for no other reason than that they remember it is a loan and a better way of looking after that soldier and all the rest of them. A big guarantee that they should either have to ask for loans or go hungry. A guarantee that they should have to suffer industrial penalty as a reward for their endurance and sacrifices and heroisms. A guarantee that if they come back with some handicap like a lost limb or blindness the government will make it its business to teach them how to overcome that handicap.

Like saying to the wounded soldier: "Don't bother me."

To say "I'm sick and tired of all these loans. I've given all I'm going. The infinite boon of peace is ours. A I heard a woman of means say the other day is equivalent to pulling yourself away from that soldier and saying "The war is over. Don't bother me any more." The war is over thanks to him and others like him. The infinite boon of peace is ours. A

Canned pimientos beaten with cream cheese and a little mayonnaise served on lettuce leaves.

Tomatoes and sliced cold boiled potatoes with mayonnaise served on lettuce.

Sliced boiled beets and slices of green peppers that have been parboiled and then sliced thin, served on lettuce leaves with mayonnaise or French dressing.

Cold butter beans, sliced hard-boiled eggs and mayonnaise served on lettuce or other salad greens.

Cabbage and celery chopped and combined in equal proportions, served with a French dressing or a cooked dressing.

Cold cauliflower, chilled and served with French dressing and sprinkled with grated Edam cheese.

Sliced Bermuda onions, sprinkled with a little sugar served on watercress with French Dressing.

Shredded cabbage, marinated in

French dressing and served on sliced tomatoes, is a delightful spring salad. Chopped pickled beets, green or canned peas, and mayonnaise, mixed and piled in halved egg whites, hard-boiled, and sprinkled with crumbled hard-boiled egg yolks.

Dear Mrs. Thompson: I am a girl 24. A year ago I met an Englishman who was over here doing some war work. He is now making preparations to return to England and he has asked me to marry him and go with him.

I love him very much and want to do so, but my parents object. They say that I have not known him long enough to be sure that I love him. I know that if I give him up I can never love any one else.

My parents have been so good to me always that I cannot bear the thought of doing anything to hurt them, but I do want to marry the man whom I love.

What would you advise?

Only the extent of your love can decide this question for you. If you love the man enough to be happy away from your parents, think you should marry him. But if you care so much for your parents that you would be miserable living so far away from them, you should not accept the offer of marriage.

It will be very hard for your parents.

### VARIKOSE VEINS

VariKOse means enlarged and tortuous. VariKOse veins appear in many places, but most frequently in the legs and thighs. In the groin and scrotum in this situation (varicocele) about the orifice of the bowel (called piles or hemorrhoids), on the abdomen and on the backs of the hands.

Once established, varicocele is a troublesome as eye, hair or wrinkled skin. No matter what the situation of the varicosity may be, it cannot be cured. Something is lost which the genius of man can never restore to its original condition.

But varicose veins do not necessarily cause any trouble whatever, in any situation. And one who has them may with care avoid any serious trouble from them. Take hemorrhoids, for instance. Careful personal hygiene will usually prevent "attacks" inflammation of the piles. Between "attacks" the varicosities need give no discomfort.

VariKOse has been exploited from time immemorial by charlatans. Yet varicocele practically never causes any trouble whatever, aside from a slight discomfort in warm weather.

VariKOse has been found among young soldiers about as frequently as varicose veins in people generally; it has not made the soldier any less efficient as a soldier.

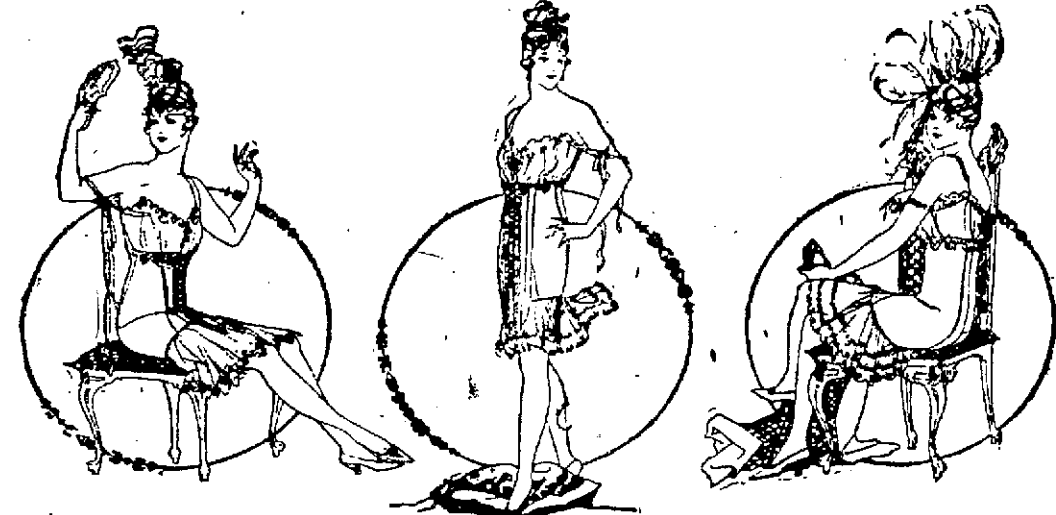

The causes of varicose veins have been discussed in another talk. Briefly, the chief factor is faulty physical education, faulty posture, and all the physical weaknesses that necessarily accompany neglect of this side of human education.

If varicose veins in any situation whatever become a source of constant annoyance, as from ulceration, or a source of danger from bleeding, danger to health rather than life, it is wrong to submit to permanent physical handicap to insure safety for such a trivial cause. Have them removed by the surgeon. That is the way to get rid of them. It doesn't cure the varicosities; it takes them away. They are of no use anyhow.

Standing, sitting and walking correctly are the first essentials to good health and that elusive charm we call style

ALL women wish to be well; but all women do not appreciate the vital importance of correct corsetry as an essential to good health. The well-known medical authority, Alice S. Cutler, M.D., warns us: "As a physician who knows that if it were not for ill-fitting and the wrong kind of corsets we would have very few female invalids, I am naturally determined to do everything in my power to educate the American woman in the proper fitting of corsets. Most learned physicians now recognize the modern corset as a hygienically healthful garment and one that is often the best means of providing corrective support for many bodily ailments."

## GOSSARD CORSETS

The Original-Unequaled Front Lacing Corsets

have attained their unquestioned superiority by assisting nature to perfect expression.

Every Gossard is hygienically correct. Properly fitted to the figure for which it was designed it will give scientific support to abdominal and back muscles, with no chance of undue pressure at the waistline; the organs of nutrition will be free from pressure; the erect posture which is induced will encourage deep breathing and the diaphragmatic muscles become strong with use. A woman so corseted will have the undeniable beauty of health and that grace of body, standing, sitting, or walking, which is best expressed in the one word, style.

We unreservedly recommend Gossard Corsets as the complete expression of modern corsetry. Our highly specialized corset service is maintained with a full appreciation of the exacting needs of the modern, active woman.

The Motor Doctor's "Favorite Prescription"  
Grinding Valves Is Good For Just One Thing—Leaky Valves

WHEN THE SEATS and stem guides of engine valves are so badly designed that they are not adequately cooled by the circulating water, the valves themselves, especially the exhausts, may become so hot as to warp, or to form scale or pits in their surfaces. If the valve material is poor this effect is intensified. An undue amount of oil vapor and gasoline soot in the mixture fouls the faces of the exhaust valves especially and the constant hammering of valves on their seats, with road dirt brought in with the mixture as an abrasive, produces its effect in time. However, the valves of modern engines are well cooled and of good material, and it is rarely that a set of them requires any attention for several thousand miles. Oftentimes a mileage of five figures is made with no valve grinding being necessitated. Somehow or other, valve grinding has become the "favorite prescription" of the motor car doctor, supposed to cure the engine of "what ails it." It is recommended for all "skips," "knocks" and other infirmities of the ignition and carburation system and for almost everything else, short of broken crank-shafts. This is all very foolish. Valves do require grinding at long intervals. They require grinding when they have become leaky and under no other conditions. The wise motorist will disregard superficial advice and not waste time and money grinding well sealed valves, to cure troubles which are due to entirely different causes.

## DRYING OUT DRAINED ENGINE

J. A. M. writes: I keep my car in cold storage and draw off the cooling water every night. When it is brought in hot, is it necessary to run the engine after letting out the water, long enough to evaporate whatever liquid may remain in the system?

Answer: We do not consider it necessary or advisable to run the engine until the insides of the lockets are fully dried out. Moisture merely adhering to the inside walls of the cooling system can give no trouble from freezing, but pockets of water anywhere in the system may do so. Running the engine a while, usually shakes out what little water falls to run out through the drain cocks or brings it into the pump, from which it is expelled. If, however, you wish to run the engine to dry it out pretty thoroughly, you can safely operate it until the cylinder heads become too hot to touch with the hand for any length of time.

## PECULIAR ANTI-FREEZE LIQUID

A. C. asks: What can you say about using a mixture of kerosene and water in the radiator during cold weather?

Questions of general interest to motorists will be answered in this column, space permitting. Address Albert L. Glaugh, care of this office.

# MAXWELL SMASHES RECORD FOR NON-STOP SEALED IN HIGH GEAR

Ran 4,241 Miles in Seven Days Without a Stop; 11,000,000 Consecutive Revolutions of Crankshaft Prove Maxwell Steadiness.

Details are as follows: With the motor sealed in high gear and after driving for seven days through the thickly congested streets of Los Angeles for seven consecutive days the closing thirty-six hours of the phenomenal record were driven in the harshest storm of the winter season. The total of 4,241 miles was made as follows: First day, 445 miles; second, 623; third, 639; fourth, 734; fifth, 563; sixth, 503; seventh, 720 miles. The outstanding feature of the Maxwell "sealed in high" record is the tremendous test on the clutch, transmission, drive shaft axles and differential, in so successfully surviving the tremendous strain of starting and stopping, its load of three men, extra gasoline, oil and supplies for the passengers, driving relentlessly day and night, sunshine and storm and stopping a thousand times—the car but not the motor—on the busiest streets of Los Angeles.

Crankshaft Severely Tested. Each of the four wheels of the record-breaking car revolved 2,851,400 times during the test, a tremendous strain on the axles and wheel bearings. More astounding perhaps is the fact that the Maxwell crankshaft made more than eleven million revolutions without a stop. Experts have further figured out that over twenty-two million sparks were collected and delivered to the spark plugs, a startling proof of ignition efficiency in the Maxwell. A. A. Russell is the local Maxwell dealer.

# FORD The Universal Car

There are more than 3,000,000 Ford cars in daily operation in the United States. This is a little better than one-half of all the motor cars used in America. The Ford car is every man's necessity. No matter what his business may be, it solves the problem of cheapest transportation. The Ford Factory has not yet reached normal production. It will take some time, after being entirely given over to war work. We are getting a few cars right along but If You Are Figuring On A Ford Car For This Season Place Your Order Now. Orders Will Be Filled In Rotation. It is no longer necessary to go into the details describing the practical merits of the Ford car—everybody knows all about "The Universal Car." How it goes and comes day after day and year after year at an operating expense so small that it is wonderful.

## SHUT OFF FROM FLOODS

Friendship.—Adams county is isolated from the west by the floods in the Wisconsin river valley. All traffic is cut off between this county and Neenah, the most important nearby business point. The river is far out of its banks and the country roads near the river are all under water.

Roads in some places are under as much as three feet of water and some of the highways have been cut out by the current. All roads across the river are impassable for the river is higher here than it has been for fifteen years. The same situation is true in a smaller degree of all the territory along the tributary streams. The Yellow river below Neenah has flooded the farm lands in its valley. The railroads, however, have suffered no serious damage as the tracks are built to avoid flood damage.

Gale Stops Farm Work. Elroy.—A blizzard has stopped all farm work in central Wisconsin. Early crops were expected, but a blanket of snow, the heaviest on record, has delayed all farm work.

# We Can Now Cut Your Tire Bills

## And Give Puncture-Proof Service

We have joined the ranks of over 1,000 progressive dealers who are offering puncture-proof tire service and a 50% economy in tire expense to every motorist—and we are proud to announce it.

Less than three years ago Charles C. Gates, E. M., invented the tire which gives this service and economy and is now revolutionizing the whole tire business.

It is oversize—and sold under a stronger guarantee than the tires you have been using.

It is guaranteed puncture-proof. It costs only 1/2 as much.

Over 350,000 motorists, including the largest business house in the country are now using these tires and endorse them. No stronger testimonial could be offered.

These motorists are saving one-half on the original cost of their tires, and are getting 10,000 to 15,000 miles of service: puncture-proof service—guaranteed!

You, too, are entitled to this service and saving, and we are prepared to give it to you.

This tire embodies a scientific principle which is so simple that when you see it you will say just as hundreds of other motorists have, "Why didn't someone think of this before?"

Let us show you these tires—Gates Half-Sole Tires—that are oversize and puncture-proof, and yet cost you only one-half as much.

## HEAVY BOOK WAITS HEARINGS NEXT WEEK BEFORE LEGISLATURE

(SPECIAL TO THE GAZETTE)  
Madison, April 18.—The Wisconsin legislature has been bulletined for hearing next week in an effort to get the work of the session under way for a June 1 adjournment as suggested by Lieut. Gov. E. F. Dittmar and Speaker Riley S. Young.

The agricultural committee, Wednesday will give a hearing to the bill carrying an appropriation for the dairy and food department, but providing for increased license fees for dairies and other industries. Roethe's resolution asking congress to repeal the daylight saving laws is on for hearing the same day.

The big trunk highway bill increasing the trunk highway system of the state from 5,000 to 7,500 miles in order to meet the demands of the federal government will be heard by the finance committee, Tuesday. The Hood bill abolishing the poll tax is on for hearing the same day.

The perry bill for the licensing of printers and decorators is slated for hearing Tuesday.

Scores of assembly bills are now appearing before the senate committee for consideration, indicating that the work of the session is well advanced. The tariff bill providing for one day's rest in seven is on for hearing before the senate corporation committee, Wednesday. This bill passed the lower house by a large vote. It will also give a hearing to the Children bill making influenza a dangerous communicable disease.

The senate judiciary committee on Tuesday considers the March resolution asking an amendment to the state constitution providing for the initiative and referendum.

Problems of reconstruction will be considered Wednesday. A hearing will be given to the Bird bill providing for the establishment of community houses to take the place of saloons. Another bill to be considered that day provides for labor representation on boards of directors of industrial corporations. Still another bill recognizes the principle of collective bargaining.

The bills of the house of an important nature have been given hearings and most of the measures now before the committees are of minor importance, the bill to give aid to soldiers.

Early this week the finance committee will report the bill increasing the appropriation of the industrial commission \$100,000 annually.

## LITTLE TALKS ON TREES AMERICAN FORESTRY ASSOCIATION THE BLACK WALNUT

YOU remember some time ago how the country was being scoured for walnut trees, how President Wilson called on the Boy Scouts to help in the hunt and how the Red Cross and others aided in this work in order that the aircraft production bureau and the ordnance production division of the war department might have enough material for aeroplane propellers and gun stocks. The reason they had to hunt so hard was because the nation's supply of this valuable wood which had once been so plentiful had been pretty well used up, and Germany had during some years before the war bought up a good many million feet of this lumber.

If you were to take a map of the United States and draw a big oval extending on the north a short distance up into the lake States and south to Tennessee, and from the western end of New England out to Nebraska, you would have covered the area of most of the walnut stand, although it grows also far south as Florida and Texas and some trees would be found farther west.

The black walnut is a beautiful tree with straight trunk and stout branches and is symmetrical in shape. It is an ornament to any landscape. It takes eighty years for the tree to grow to commercial size and all the time it was being cut down little, if anything, was being done to replace the loss. The walnut is usually from 50 to 75 feet high, although it will grow to a height of 150 feet. The time to plant the nuts is in the spring, otherwise squirrels and other animals are likely to dig them up for part of their winter provender. The black walnut is one of the most rapid growing of any of the native timber producing trees.

Any questions on trees will be answered by the American Forestry Association of Washington. Enclose a stamped, self-addressed envelope for reply.

## SHARON

Sharon, April 18.—Mr. and Mrs. Charles Wolf were Chicago shoppers Thursday.

Mr. H. T. Haverstock, Lincoln, Neb., came Wednesday to visit friends and take his household goods back with him.

The W. C. T. U. met Wednesday afternoon at the home of Mrs. S. M. Warren. The meeting was in the nature of a farewell for Mrs. W. C. Heidreich, who will soon move away. She was presented with a cut glass sugar and creamer.

Miss Gladys Williams and friend, Grace Sealy, Whitewater, came Thursday to visit over Easter with her father, Rufus Williams.

Rev. Father Pierce was at Janesville Monday to attend the funeral of Father Sheridan.

Mrs. Frank Chester and daughter, Athlen, were Harvard visitors Thursday.

Mrs. Mary Nelson returned Thursday from a few days in Big Foot with her brother, Frank Shank and wife.

Mrs. D. O. Bubb did shopping in Chicago Thursday.

Mrs. R. E. Rector and daughter, Thelma, were Harvard visitors Thursday.

Marjorie Ladd, who has been visiting her grandparents, Mr. and Mrs. Simon and Mrs. John Ladd, returned Thursday to her home in Williams Bay.

Miss Libby Heim returned from Chicago Thursday. She was accompanied home by her two nephews.

Mrs. J. A. Becton, W. C. Kingston, G. Y. Smith and J. Schroeder were Harvard visitors Thursday afternoon.

Orin Ladd, who has been staying in Beloit since his auto accident, has returned to his home in Sharon.

Mrs. C. L. Treat was visiting Harvard friends Thursday.

Peter Ladd and Miss Norma Pearson, Beloit, were married Wednesday in Rockford. The contracting parties are well known in Sharon, having lived here the greater part of their lives.

But Hardly to an Ounce.

Pat had applied for a job as butler, so the man of the house, after many questions, asked him: "Do you know your way to an ounce?" Pat, thinking he asked, "Do you know your weight to an ounce?" replied: "Becorra, I don't, sir, but I know it to a pound or two."

Even all had their parts well learned in the dialogues and the comedy acts. This is the second social Miss Pungel has had during this school year and the Otter Creek Thrift club has been started in the school.

## JOHNSTOWN

Johnstown, April 18.—Mr. and Mrs. J. T. Ward received a message Thursday that their mother, Mrs. Gavahan, had passed away. They left on the first train for Chicago to attend the funeral.

Francis Conlon is spending a few days at the T. Cavanaugh home in Richmond while his aunt, Mrs. Ward is in Chicago.

Mr. and Mrs. John Clark welcomed a 19 1-2 pound baby girl, April 18, at the Wheeler hospital, Whitewater. The little Miss will answer to the name of Joan.

Miss Elizabeth Pratt is numbered with the sick.

The Murphy children are all sick with colds and are out of school.

Carl Willis is busy steaming the tobacco beds for the farmers.

Messers and Mesdames O. B. Hall, J. N. Jones, were Sunday guests at the H. Penbody home, Hamburg.

Mr. and Mrs. C. Craig spent Sunday at the W. Helden home, Hamburg.

Otto Schumling and family of Richmond, spent Sunday at the parents' home.

## SPRING

The most enjoyable auto season of the entire year. Don't let the tire question rob you of the joys of motoring in the early spring.

Your casings may look old and appear only fit for the junk pile—but there may be thousands of miles left in them. Bring them to us—We'll tell you candidly just what can be done to put them in shape for further service.

The tire on the left had apparently seen its best days. The owner had obtained 5,000 miles of service from it and considered it fit for the junk pile. But he took a chance and brought the tire to us.

The wisdom of his action is seen by a glance at the same tire opposite. It looks as good as new and gives every promise of another season's wear of use at the average rate. This car owner saved money here. So can you. Will you? Retread your worn and junk tires and save money.

We do all kinds of tire and repairing and tube repairing and vulcanizing. Do not entrust the care of your tires to amateurs; bring them here. We also sell tires, tubes and all accessories.

## AN ETERNAL EASTER

(Dedicated to the Memory of the late Mrs. Mary Mackin.)

An Eternal Easter, so he proclaimed, Who in God's name was ordained To speak His Word, proclaim His will. An Eternal Easter for her, who lies so still.

And peaceful, sleeping in her last resting place Made peaceful by hands whose loving grace. Know well how sweet and pure her life Had been.

A faithful mother, friend and wife. Always: Well done! well done indeed, spoke He.

Thy reward shall be most fittingly— Henceforth you too will grace my throne.

And will be forever in my heavenly home. Then weep not beloved hearts for her She would not wish it. Would you prefer That you too would rejoice and say: She is with God on this Easter Day.

Cut out the picture on all four sides. Then carefully fold dotted line 1 its entire length. Then dotted line 2, and so on. Fold each section underneath accurately. When completed turn over and you'll find a surprising result. Save the pictures.

## DARIEN

Darien, April 18.—Mrs. Frank Minshall and daughter, Elizabeth, departed Thursday for their home in St. Louis, Mo., after spending several months with the former's mother, Mrs. Emilie Moon.

Mr. and Mrs. H. P. Rafferty are spending a few days with relatives at Kenosha.

The Baptist Missionary society met this afternoon with Mrs. R. W. Baker.

Mr. and Mrs. A. C. Brigham spent this week with relatives at Whitewater.

Dr. H. N. O'Brien and son, John, spent Tuesday in Milwaukee.

Mrs. Sarah Cook, Beloit, is a guest today and tomorrow of friends here.

## KOSHKONONG

Koshkonong, April 18.—The box social held at Otter Creek school Wednesday evening brought out a good crowd. Thirty-two boxes were sold altogether. The little folks' boxes were sold to each other at a small price, proceeds from all boxes being \$35.70. The quilts made by the boys and girls of the school were sold by number. There were 200 numbers at 10 cents each. Marjorie Robinson's number drew the girl's quilt and C. L. Voeck's number drew the boys' quilt.

The program was good consisting of music, organ, violin and mandolin by Mr. and Mrs. Herbert Robinson and Harry Robinson, sung by the school, "Keep the Home Fires Burning" with Harriette Freeman at the organ.

Ralph Marquart acted as auctioneer with Frank Jones as helper and Robert Traynor as clerk. The entertainment was given by the school.

## The Fordson Tractor

HENRY FORD & SON, INC. Manufacturers, Dearborn, Mich.

OVER 45,000 NOW IN USE

The Fordson is the one tractor that is adapted for use on both large and small farms. It will pull all farm implements and do the work generally done by horses. In addition by its belt pulley the tractor will run all farm power driven machinery.

The Fordson pulls a two bottom gang plow in stubbles or breaking at an average cost of 35c per acre. Will pull two eight-foot binders.

One satisfied farmer cut twenty-four acres of rye in one day pulling an eight-foot binder, plowed sod nine inches deep, also plowed 140 acres of stubble land at an average of 26c per acre. The Fordson has three forward speeds: Low, one and one-half miles per hour; intermediate or plowing speed, three miles per hour, and high, six miles per hour, and reverse.

Ask us for literature.

(By K. L. EAGAN.)  
Indications today were that a huge crowd would witness the formal opening of the championship baseball season tomorrow afternoon at the fair grounds when the crack Milwaukee All-Stars clash with the Janesville city team.

Perfect weather was prevalent today and the prediction for Sunday could not be better. "Fair and Warm" at the park will be the primary attraction. Tickets will start at 25 cents. Each ticket will be sold at all entrances to the park. The tickets will cost 25 and 35 cents, respectively for general admission and the grand stand. Each ticket will be a grand stand ticket, which will be taken up at the grand stand if purchased. Otherwise, merely the larger stand seating for general admission will be sold.

"Tenor" Murphy Ready.  
J. A. Murphy will umpire the game behind the plate. The Milwaukee club will bring an arbiter for the bases.

Work was begun early today on the diamond, and it is hoped to have the infield in first class shape before the two teams take the field.

The writer telephoned Eldred last night over the distance telephone to Albany. Eldred said he never felt better in his life and that he would be on the job early Sunday, and would bring along his battery mate, Croake. Eldred looks like the best bet to start the game.

Blick Is Recovered.  
"Albie" Blick, portender, declared during practice at the fair grounds yesterday that he was all over his last night's troubles and it is likely the boy phenom will be seen in action before the Brewers take the train back for the city of beer.

### BRINGING UP FATHER

## VAUGHN AND TYLER TEST WINGS WHILE CUBS DEFEAT TULSA

Tulsa, Okla., April 19.—Jim Vaughn and George Tyler were sent to the club yesterday to test their curves and walls they were doing it the Cubs trimmed the Tulsa Western leaguers, 10 to 3. Neither of the star south-pawseemed to extend himself to the limit, but both looked capable of doing it by next Wednesday, when the season opens.

It was noticeable that Vaughn tossed an unusual number of curve balls, also that he had trouble in getting them over the plate. He passed four batters on the five rounds he hurled. Tyler walked four in the other four innings. Score:

## SPORT SERIAL

(By K. L. EAGAN.)  
OH, BOY! OH, BABY! Did the uniforms show up? THEY DID! Did the sun come out? IT DID! Took the w. k. and p. Janesville line-up look good? IT DOES! OH, LADY, OH, NANN! OH—!!

Remember, you can push a pen, but a pencil must be laid.

FAMOUS THRILLS.

Mary's Andie (and others).

The team's ball.

Three and two.

If there isn't room in the grandstand for all tomorrow, we'll rope off the field. There ought to be a record attendance. The weather looks good, and the Milwaukee team will have some well-known players. The home team look it. It should be a bearcat game.

Years, years ago, dear.

Remember a day when egg sandwiches were a nickel along with ice cream soda and a shine. The war is over, honest. But there's a lot of birds who won't believe it.

I wouldn't take a hundred dollars for that pair of shoes. In fact, I couldn't sell 'em," said the customer to the shoemaker as he received some made-up boots.

"Why not," asked the repair man. "Because," replied the customer, "they're half sold (saled) now."

(Take that, and that, and THAT!)

We hope all the girls in town are out at the fair grounds tomorrow afternoon. We can't get along without the girls. Or with them—b'bb-b-bee-leave muh!

Some girls are decided blondes, others decide for themselves, and still others were born fair.

WE THANK YOU.

From an anonymous source, the writer today received a telephone message, with the inscription: "Please Use." Gee, we're grateful.

"In the fields of France, stand row upon row of crosses, marking the graves of the men who will not come back.

They gave their lives that our NATIONAL HONOR might live! Shall it be said of us, that we let them die in VAIN?

WE CALL THIS LAST, THE  
**VICTORY LIBERTY LOAN**  
 IT IS THAT AND MORE. IT IS A THANKSGIVING LOAN!"—

*Carter Glass*

# BUY BONDS!

Yes, Good people of Rock County, buy Bonds!

This is the last time 'round! This is the final Liberty Loan! This will go down in history as the VICTORY LIBERTY LOAN! This is to PAY THE BILLS—and to BRING THE BOYS BACK! This is to bind up the WOUNDS of the injured, and provide them with another START in life!

Money raised through this loan is to be used in EFFACING the SCARS of war, to be SPENT IN AMERICA for the relief of AMERICAN INDUSTRIES to which your government OWES LARGE SUMS OF MONEY, for WAGES and SALARIES to American men and women. Every dollar will be helpful to America, and helpful to the man who INVESTS it—it is NEEDED TO FINISH THE JOB!

Buy bonds! Buy bonds! And buy 'em with THANKFUL HEARTS! March up to subscription booths with songs of PRAISE! Ask yourself where YOU would have been today, had that IMMORTAL BRITISH LINE BROKEN at the second Battle of the Marne; or had the Poilus weakened at VERDUN—while WE were getting READY—while the world was BURNING UP!

We in America know little of the bitterness of this awful war. Our eyes have not looked upon such horrors as the old world has seen. No vast areas have been left desolate under American skies—as in Belgium and France; but there WOULD have been, had not the barbarians been STOPPED.

Eighteen months ago the heavens were BLACK! Today the sun shines through!

Buy bonds!
